# Pistol Lockers

---

The Commander® STL14 Pistol Locker is a high security law enforcement locker with four handgun storage compartments. Each unit has pre-punched holes for easy side-to-side connection.

The Visi-Locker™ STL14V is a high security locker with four storage compartments and a see-thru shatter resistant thermoplastic insert in each door. It is the ideal solution for management to quickly check on stored pistols.

The Squadron® ALM24 Pistol Locker is perfect for the temporary storage of semi-automatic handguns in police stations, correctional facilities, and courtrooms. Each unit has 8 compartments and a reinforced master door for use by management.

This Commander® STL23 Pistol Locker is a high security law enforcement gun locker with six handgun storage compartments. Each of the compartments features a proprietary adjustable pistol holder that allows guns to be stored upright.

The Commander® STL22D Pistol Locker is a desk mount handgun locker with four doors. Each unit comes standard with brass key locks and non-duplicating patron key codes. All weapons lie flat in padded pistol locker storage compartments.

The Stackable Commander® STL22 Pistol Locker has pre-drilled holes for convenient vertical stacking or horizontal connection. All weapons lie flat in padded pistol locker storage compartments.

---

## Laptop Lockers

---

The STL17 (7 door) and Stackable STL17D (14 door) Laptop Lockers are intended for the secure storage of laptops, eReaders, iPads, and other electronic devices. They are excellent alternatives to mobile laptop carts. 4" base optional.

The Snapcharge™ STG17 (7 door) and Stackable STG17D (14 door) Laptop Lockers store and simultaneously charge laptop computers. With 110V AC electrical outlets, the units support tablets, eReaders, and other electronic devices.

---

## Tablet and Cell Phone Lockers

---

The Snapcharge™ STG23 Tablet / Smartphone charging locker is engineered for the simultaneous charging of up to six tablets, cell phones, and other mobile electronic devices. Each of the six compartments features a customizable USB cable to accommodate multiple devices.

The Squadron® ALM44 Cell Phone Locker is designed for the comfortable storage of small electronic devices — smartphones, cell phones, cameras, or other small valuables. There are 16 individual compartments in each unit and a reinforced master door that allows management to access every compartment at once.
