

PRODUCT DATA SHEET

SNAP CHARGE LAPTOP LOCKER - 14 doors (Floor Mount)

Product Code: STG17-151834D

General Description: Laptop charging locker. Factory assembled welded steel lockers, each with seven (7) patron doors each, vertical configuration: 1-wide x 14-high, for the storage of laptop lockers. Interior electrical raceway with 110V electrical receptacles for charging laptops or other mobile devices.

Dimensions (W x D x H):
15 in. (572 mm) x 18 in. (457 mm) x 68 in. (1727 mm)

Door Opening (W x H): 13 in. (330 mm) x 4-1/2 in. (114 mm)

Material: Frame & door 16 ga.; shelves & body 18 ga.

Construction: Welded steel, no exposed rivets, smooth outside surfaces, doors flanged with welded corners, shelves weld secured to body. Hinges continuous, concealed, welded to frame and bolted to door. Pry protection lip guard conceals cam. Steel base (4 inch) with levelers.

Locking System: Standard: user definable combination locks (UDCL) with management master key override. Patrons can set their own unique codes on a per usage basis. Optional: key locks with (2) keys per compartment (chrome plated brass lock housing and cylinder, drill resistant, non-duplicative key combinations), master key system, or electronic keypad locks. Lock and key replacement or ex-change by Precision Locker Company only.

Finish: Powder coat paint finish. Standard color combination: 2-tone charcoal. Architectural color samples are available.

Installation: Floor mount is recommended. Pre-drilled mounting holes in rear of unit for securing to wall. Integral weld nuts allow easy vertical attachment of two seven-door modular units. Owner to provide fasteners, anchors, brackets and other hardware of type and size appropriate for type of substrate. Recommended 4 in. high base with levelers supplied by Precision Locker Company. Units vertically stacked by customer.

Weight: 132 lbs. (60 Kg.)
