LOCK & KEY REPLACEMENT POLICY

In the event of lost keys, it is recommended that you use the services of a licensed locksmith to drill out the lock to avoid personal injury or damage to the cabinet.

New replacement locks with different key combinations are available from our service center.

For security reasons replacement or duplication of existing keys is NOT available unless:

Purchaser requests replacement on organization's or company's official letterhead with reference to Purchase Order number of original purchase of equipment.

WARRANTY

Precision Locker Company provides a two-year limited Warranty, from the date of shipment, covering defects in material and workmanship of all locker equipment, and provides factory replacement and/or repair of all defective items. This Warranty does not cover damage due to improper installation, misuse, mishandling, or acts of nature. Improper installation includes but is not limited to outdoor installation. Precision Locker Company makes no other warranties of any kind, either expressed or implied.

RETURN POLICY

All product shipments are properly packaged, but should be thoroughly inspected upon receipt and prior to acceptance for potential damage in transit. Returned goods for any reason will not be accepted by Precision Locker Company without a Return Material Authorization (RMA) number. Contact the Service Center of Precision Locker Company to obtain the required RMA number and return address.
